

Hunions Mouse Cursor Usage Guide

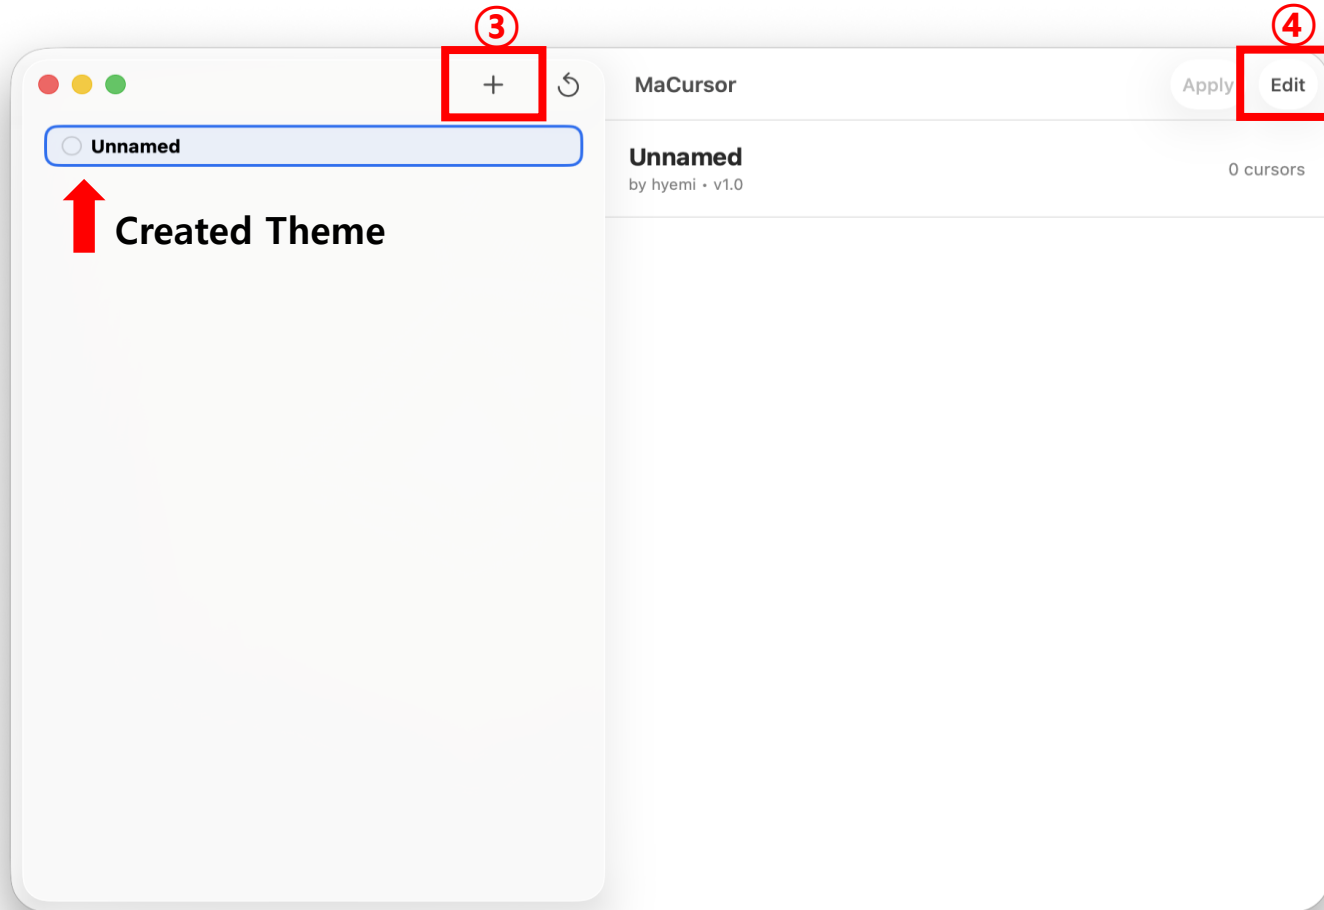

[macOS]

- ① After downloading the folder for Mac users, please open the Installation Link.txt file.
- ② Open the installation link, then download and install **Assets > MaCursor.dmg**.

- ③ Open the installed MaCursor, then click the + button to create a new cursor theme.
- ④ Select the theme you created, then click the Edit button on the right to open the editing screen.

- ⑤ Check Show All, then select the type of cursor you want to change.
- ⑥ Click the Choose Source... button and select the PNG image you want to use.

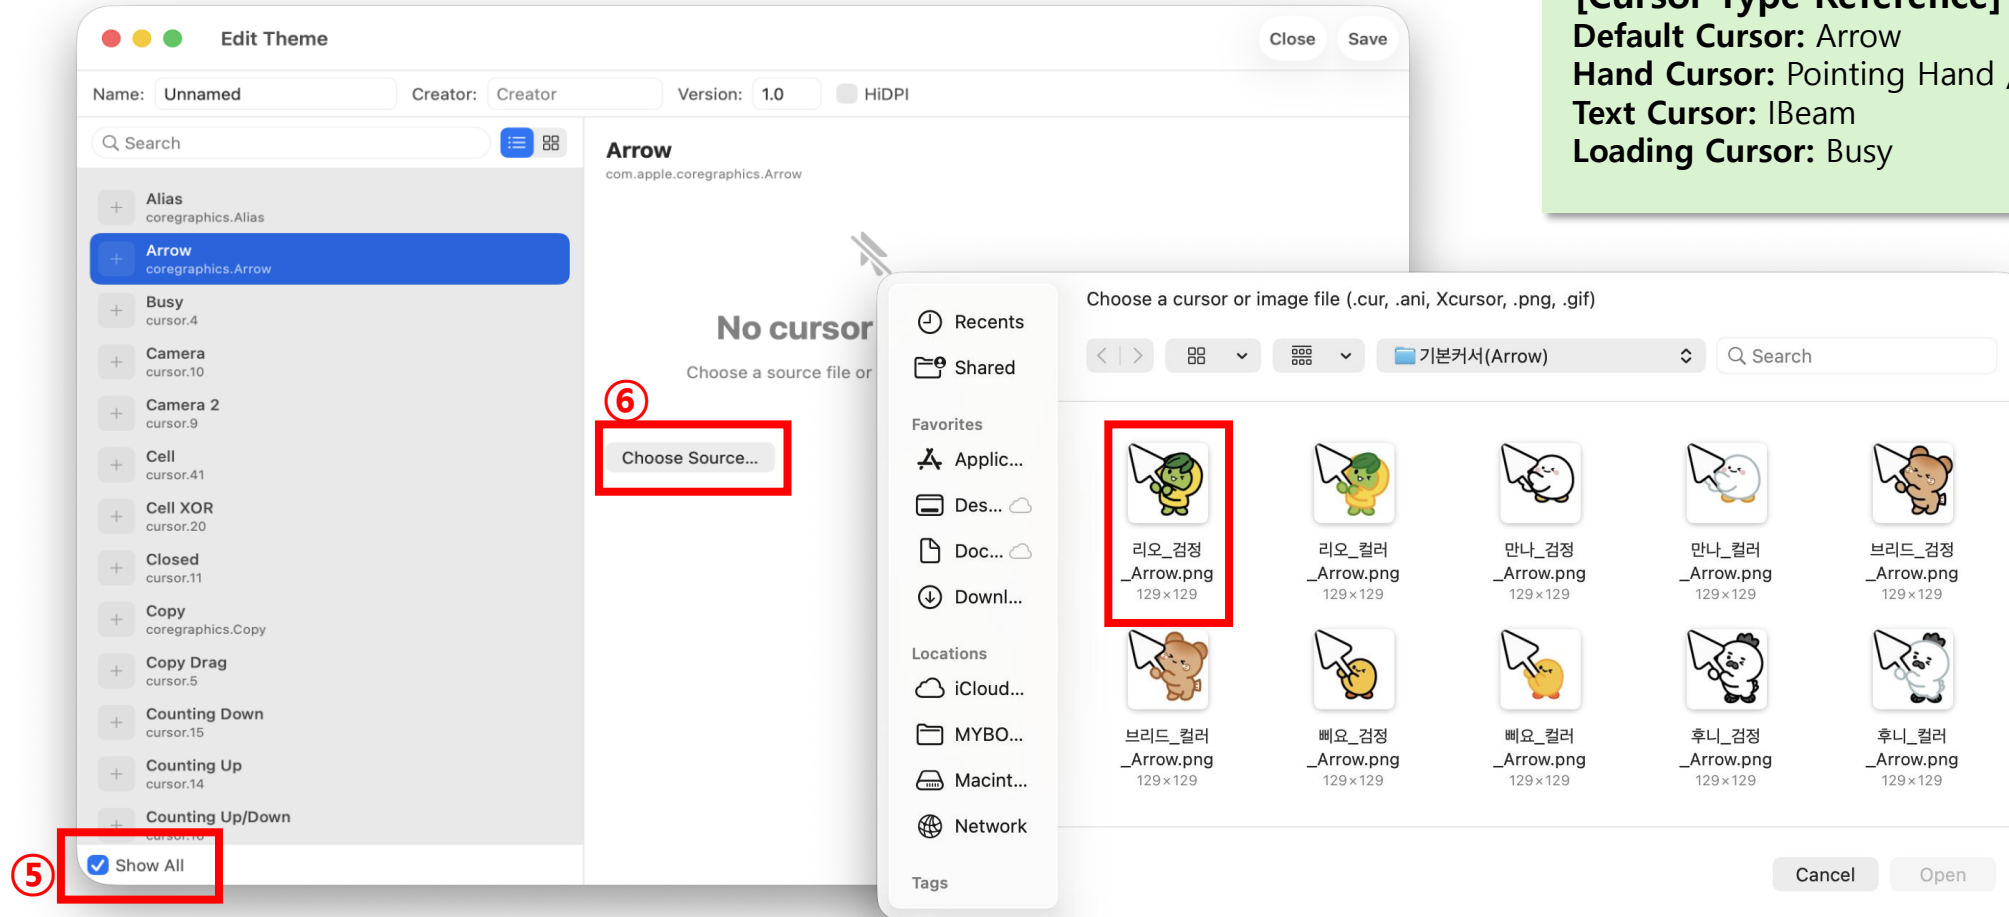

[Cursor Type Reference]

Default Cursor: Arrow

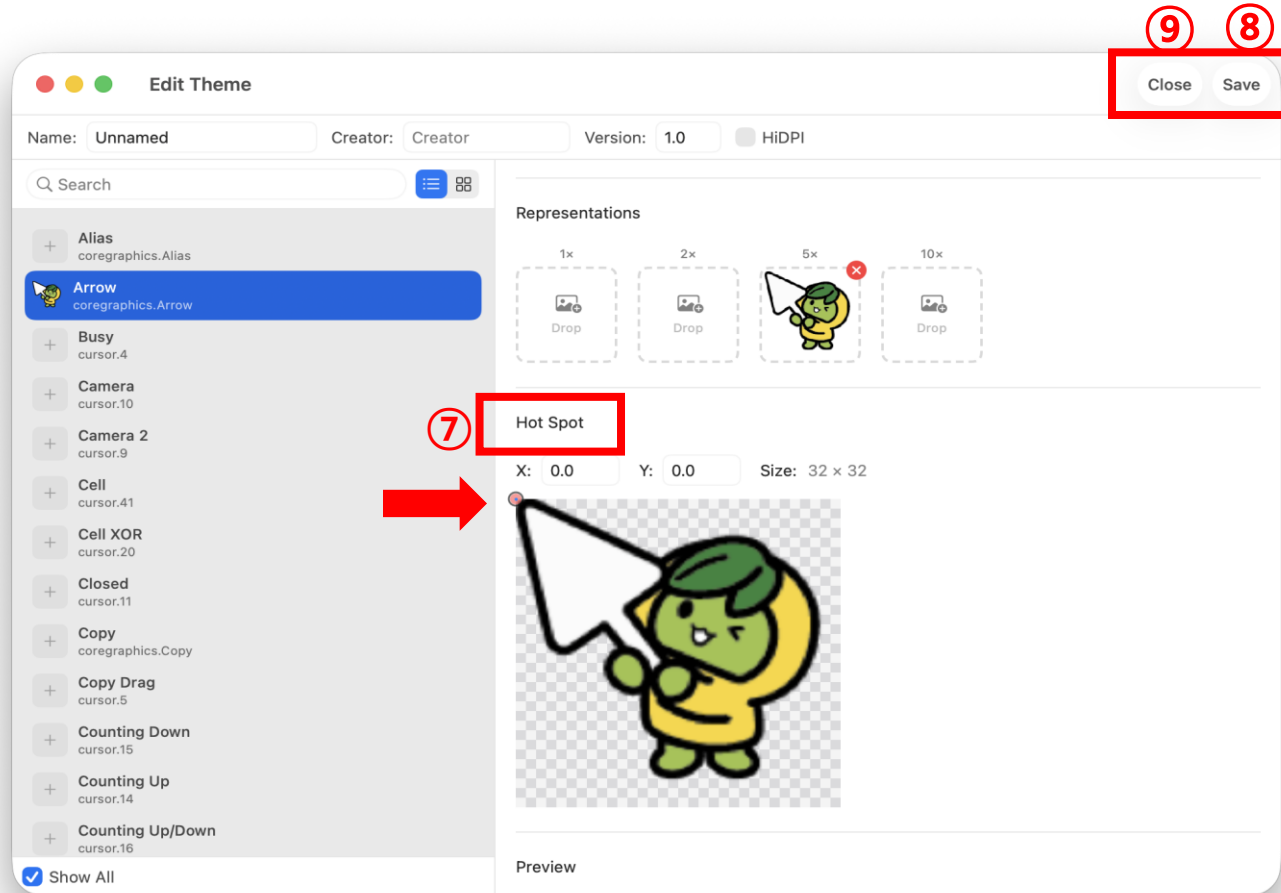

Hand Cursor: Pointing Hand / Pointing

Text Cursor: IBeam

Loading Cursor: Busy

- ⑦ Check and adjust the Hot Spot (the actual click point) for each cursor.
 - ⑧ Click Save to complete the setup.
 - ⑨ Add the other cursors in the same way.
- Once you have finished adding all the cursors, click Save, then click Close.

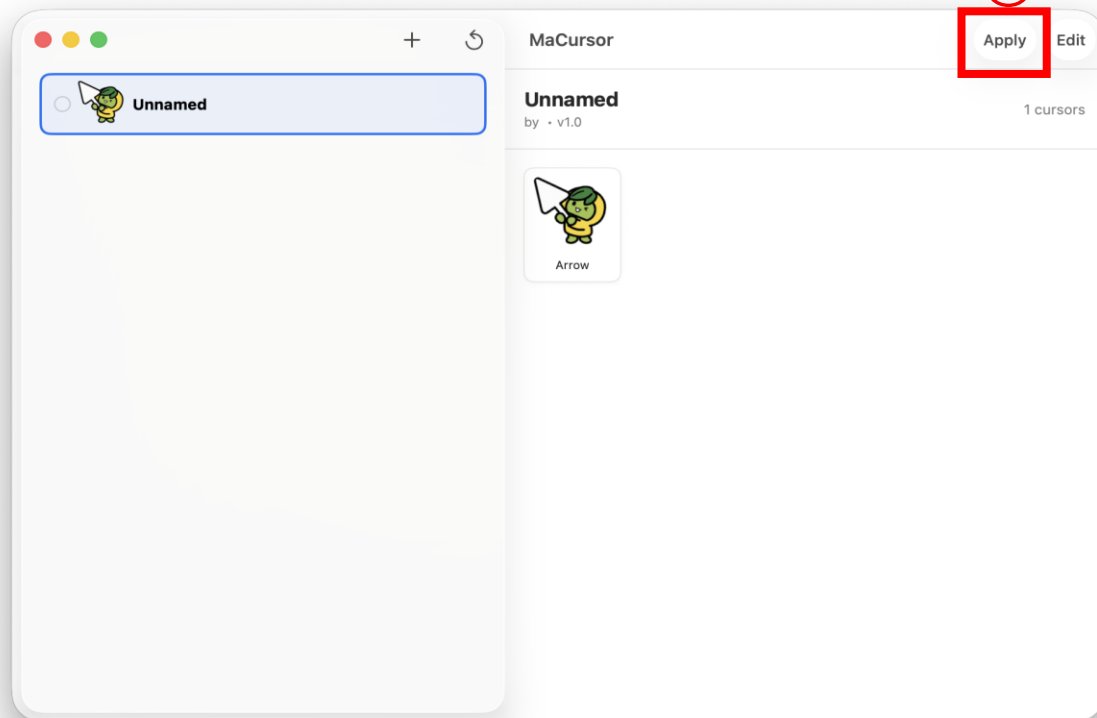

⑨ Click Apply on the theme screen to apply your new cursor!

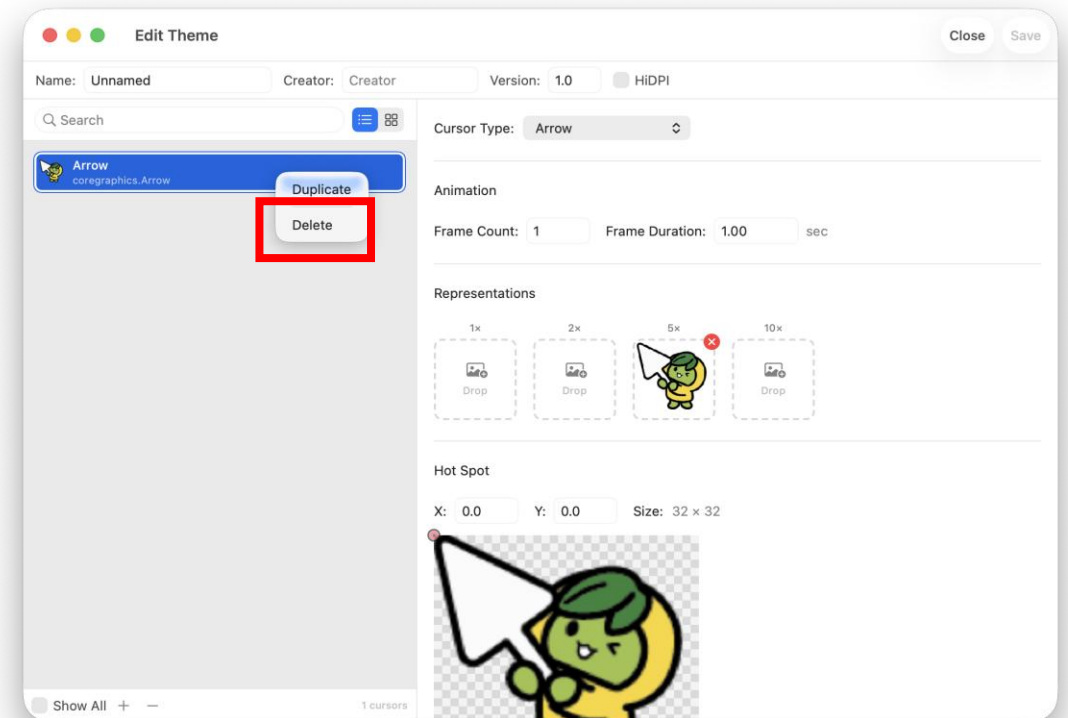

Now you can enjoy using your cute Hunions cursor 😊

※ If you need to make any changes, click Edit, delete the cursor image you want to change, and upload a new one.

Hunions Mouse Cursor Usage Guide

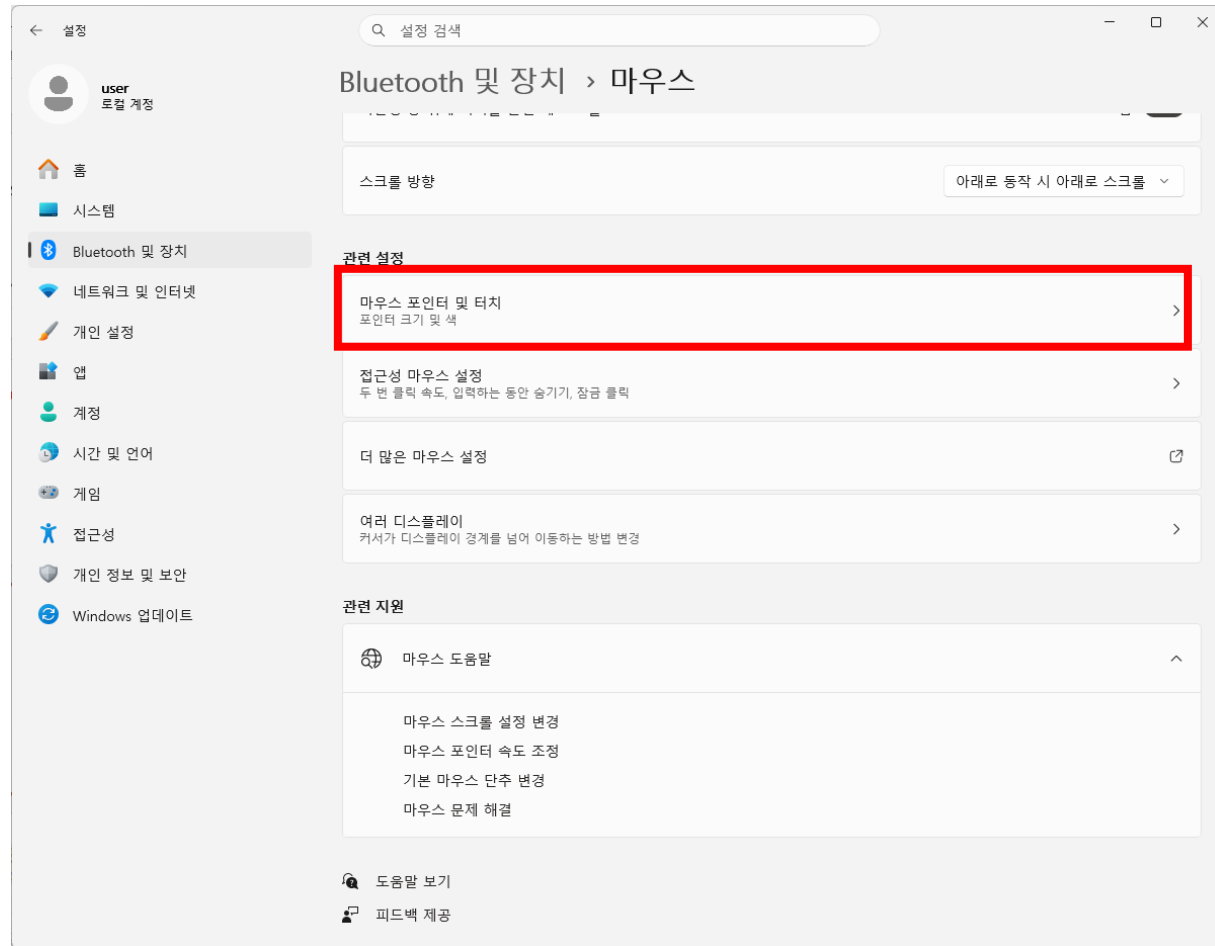

[Windows]

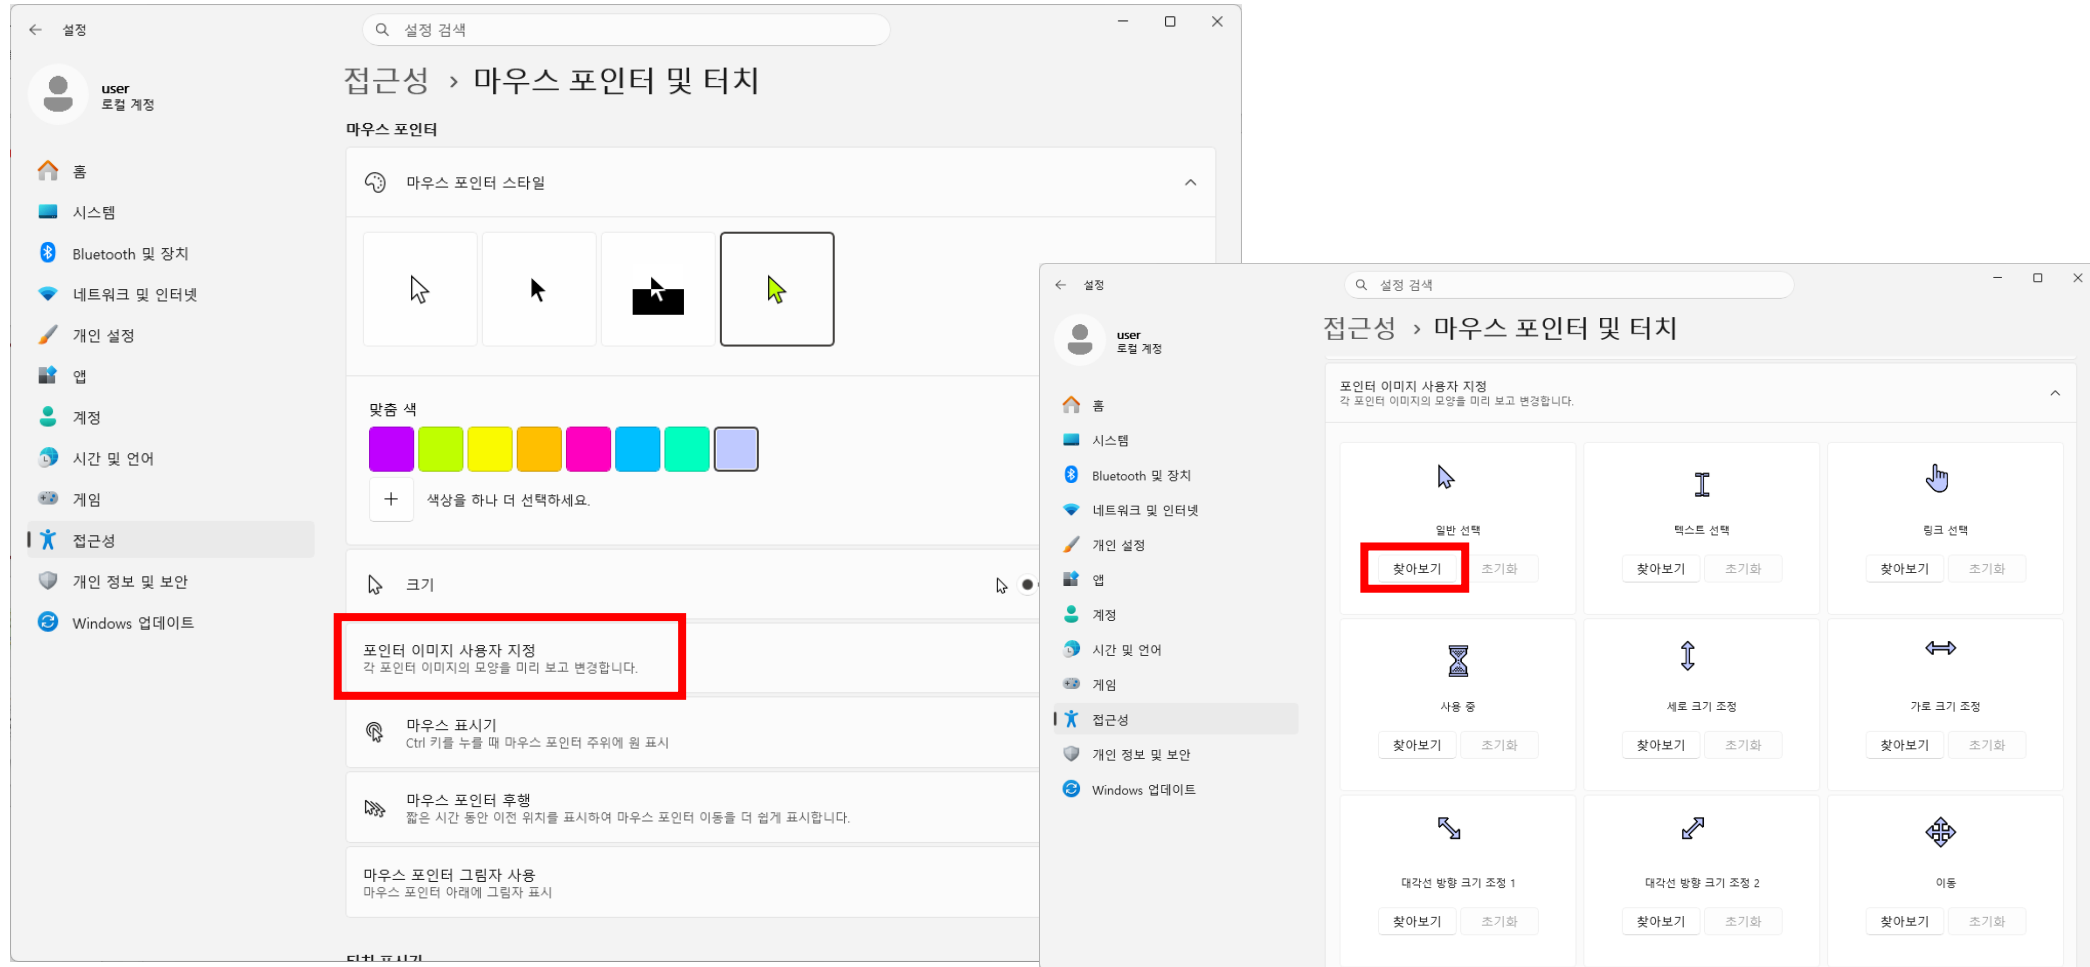

- ① Go to Start → Settings.
- ② Select Bluetooth & devices → Mouse.

③ Under Related settings, click Mouse pointer and touch.

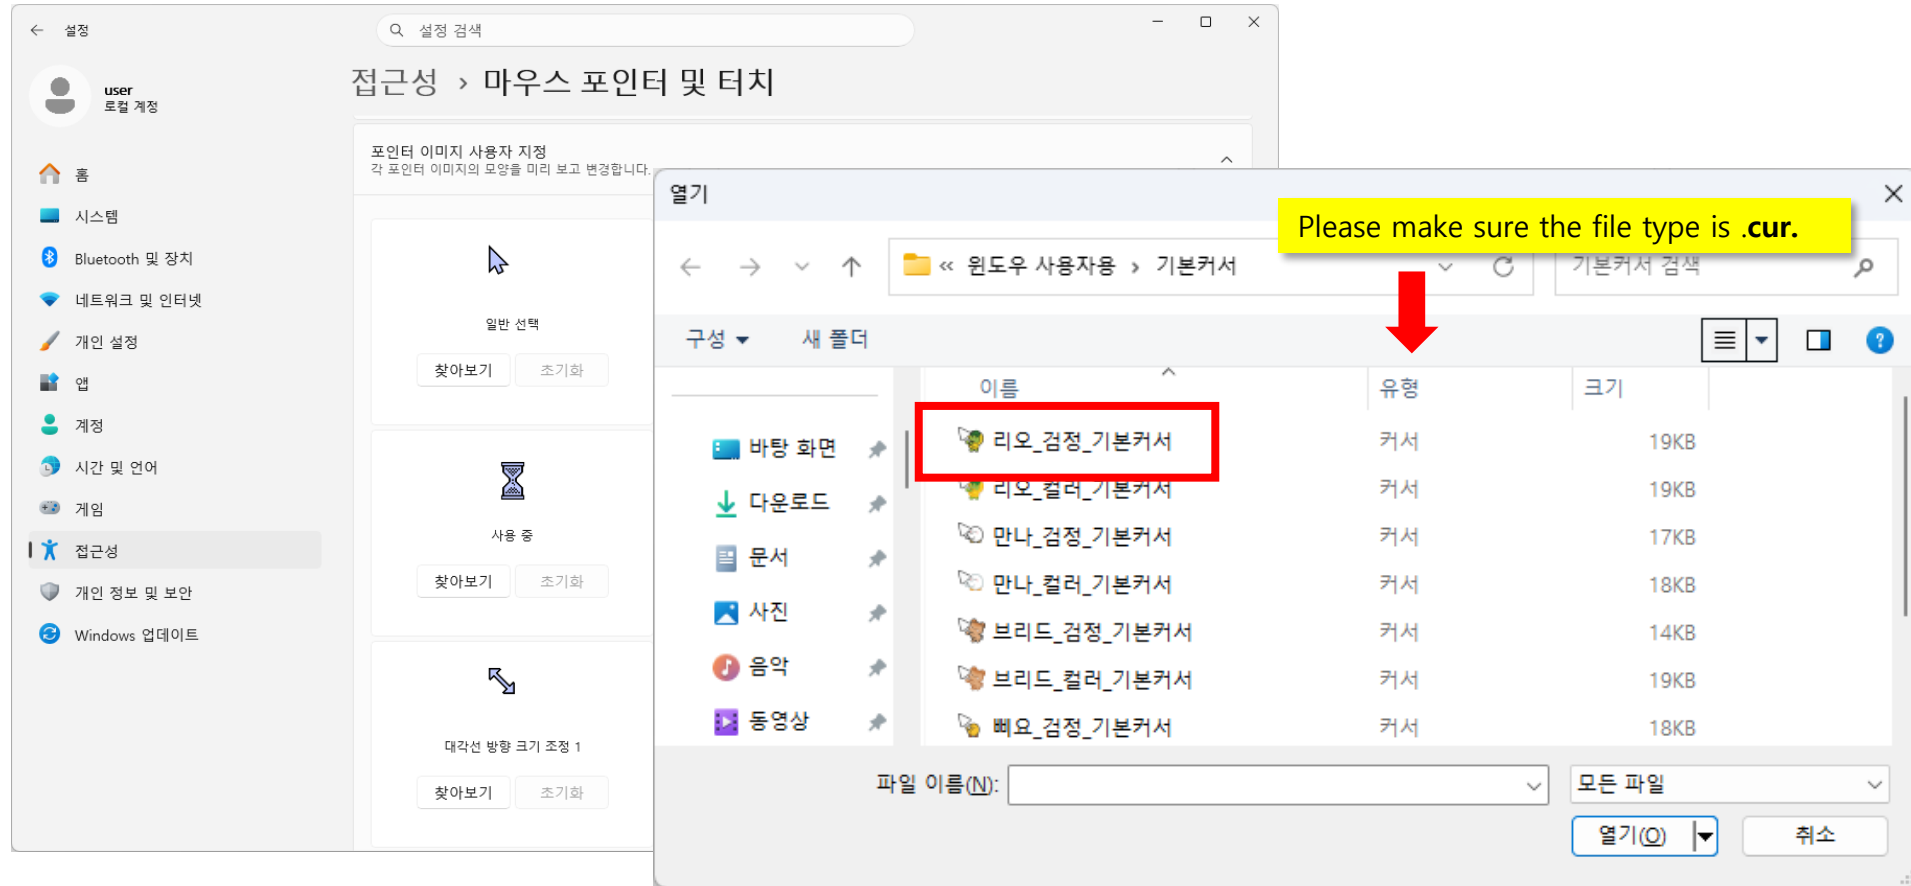

④ Expand “Customize pointer image,” then click “Browse” for the cursor you want to change.

⑤ Select the downloaded cursor file, then click "Open."

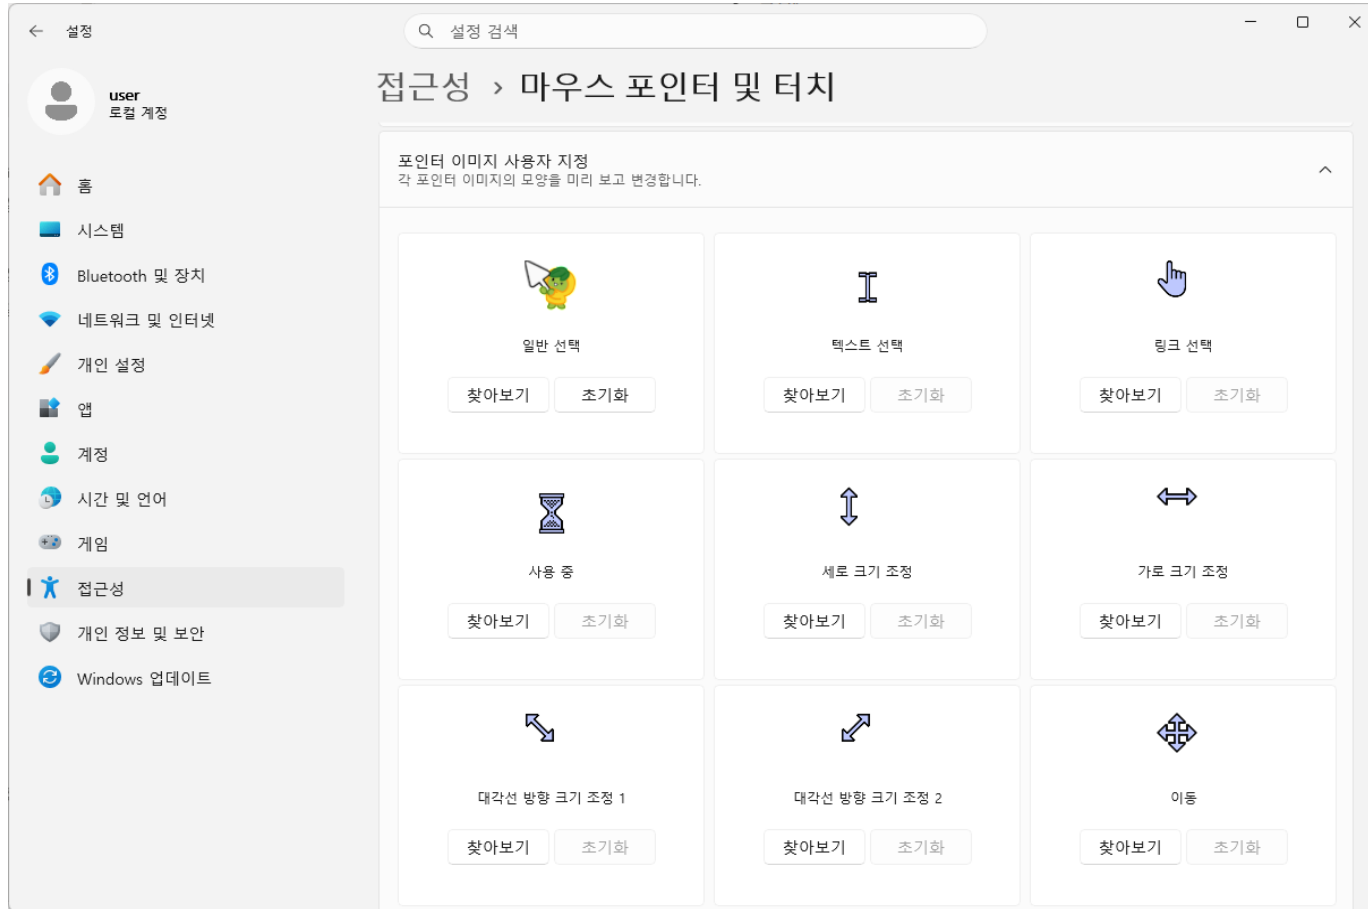

※ For Windows, make sure to select a cursor file with the .cur extension.

⑥ If the cursor has changed as shown in the image, you're all set!

You can now enjoy using your cute Hunions cursor. :)

※ If you want to change it again, simply click "Browse" and select the cursor file you'd like to use.

Thank you!
